--- ## 4. Logo Clear Space & Minimum Sizes

Clear Space Rule Maintain an absolute minimum clear space around the logo equal to **1.5x** the radius of the Red Breaking Dot (1.5x). No text, UI controls, or screen margins may intrude upon this perimeter.

```

+-----+
+ | [1.5x] | | +-----+ | [1.5x] | [ICON]
DailyNews | [1.5x] | | +-----+ | [1.5x] | +-----+

```

Minimum Dimensions - **Primary Logo (Digital)**: 120px width (or 48dp in Android layout). - **Icon Only (App Icon / Favicon)**: 24dp

(UI action bar), 32px (Web Favicon). – **Print / PDF**: 20mm minimum width. ---

5. Incorrect Logo Usage Guidelines To preserve brand integrity, **NEVER**

apply any of the following modifications: 1. ❌ **Do NOT distort or stretch**: Never alter the aspect ratio of the globe or wordmark. 2. ❌ **Do NOT change brand colors**: Do not swap the red breaking dot to green, yellow, or custom brand tints.

3. ❌ **Do NOT drop shadow on clean icon**: Avoid heavy blur drop-shadows on

the vector mark. 4. ❌ **Do NOT place on low-contrast backgrounds**: Never

place dark logo assets on dark surfaces without proper contrast boundaries. 5. ❌

Do NOT alter typography: Do not replace Poppins with serif, script, or system

default fallback fonts. --- **6. Android Adaptive Icon Implementation** DailyNews

includes native Android 13+ thematic adaptive icon XML specifications: `<xml>` –

Foreground: `ic_launcher_foreground.xml` (Vector globe + newspaper mark

scaled to 66dp safe zone). – **Background**: `ic_launcher_background.xml` (Solid

Midnight #121212). – **Monochrome**: `ic_launcher_monochrome.xml` (Pure white

for Android 13+ material dynamic themes).
